CUBA LOOKING TO HER INTERESTS

Reciprocity Treaty Commercial Not Political.

GOVERNMENT STUDYING IT.

It Will Soon be Returned to Wash ington With Observations and Modifications.

Washington, Oct. 31.-Senor Quesada, Cuban minister to the United States, commenting on the negotiations now being conducted for a commercial treaty betwess Cuba and this country, today said:

"The reciprocity treaty is a purely commercial convention and has nothing to do with any other political questions which may arise between the two tions which may arise between the two governments and has absolutely to do with the Platt amendment. The Cuban government has been studying the draft of the treaty submitted by Secy. Hay and has been consulting the different interests in the Island and the custom house receipts as well, and in due time will return it with passervations. time will return it with observations and modifications deemed best for the interests of Cuba, and at the same time that which will not hurt the interests of the United States.

"It has been shown by past experience, under the reciprocity arrangement by Mr. Blaine, that the commerce between both countries has materially increased, and it is expected that under any reciprocal arrangement between the two countries the figures will be still higher than they were 10 years ago, when they reached upward of \$100,000,-

Mr. Quesada said that the best of re-lations existed between the Cubans and Americans. He spoke of the popularity of Minister Squires, and the gratitude of the Cubans to the United States for services which were rendered.

CASE OF THE DOUKHOBORS. Their Condition Such that They Cannot be Reasoned With.

Yorkton, N. W. T., Oct. 31 .- "I think it is beyond power or reason to parley with the Doukhobors any longer. Exhaustion, hunger and sleeplessness have rendered their condition such that they can no longer be reasoned with. I have worked night and day with the misguided people, and must confess defeat far as inducing them to return to their homes is concerned.

One thing is certain, the Doukhobors must be taken care of. I have notified the authorities at Ottawa to give the question of their condition the most serious consideration. It seems to me that force is now necessary, as reason and kindness have failed. If disaster is to be prevented, the frenzied Russians must at once be induced to aban-don their mad march."

This statement of Colonization Agent Speers today is a summary of the sit-lation. Two of the Doukhobor women ere now helpless lunatics. The men slept in ditches and on railway tracks last night, and trains had to be run with care in the district where the Doukhobors are on the march.

President Receives Workmen.

Washington, Oct. 31.-After breakfasting at the White House today President Roosevelt informally received 191 of the mechanics and laborers who been engaged upon the repairs the mansion. The president greeted of the mansion. the workmen as they passed, having a pleasant word and smile for each. He thanked them as a body for having facilitated by their work the completion of the repairs to the mansion, thereby enabling him once more to occupy it.

Chief of Engineers' Report.

Washington, Oct. 31 .- The annual port of Gen. G. L. Gillespie, chief of engineers of the United States army, for year 1902, made public today, says the duties devolving upon the corps are heavier than before in its history. Com plaint is made that under the reorgan zation act of February, 1901, the rate of promtion for officers hereafter joining corps, it made slower than it was before, and a return to the old system

The report contains a complete re-sume of the river and harbor improvements for the year, but owing to the ct that no river and harbor bill will be pased by Congress at its next ses-sion, no estimates are made for special improvement projects. There is, howimprovement projects. ever, an estimate in the lump for money required as follows: Under continuing contracts, \$18,570,

under California debris commis sion, \$15,000; the Mississippi river com ion submits an estimate amounting to \$2,500,000. During the year the exnditures amounted in the aggregate 0 814,411,525.

Reference is given to the improve-ment of Manila harbor and the Pasig river, which is being carried out with insular funds, consisting of a continuous appropriation not to exceed \$3,000,000 United States currency,of which \$1, The harbor work is being done by contract to the amount of \$2,150,000, to be completed in three years from May 1, 1992, and the Pasig river work i being done by day labor and the us of the plant owned by the insular gov-

CANADA'S TRADE. Very Marked Increase in it During The Past Year.

Washington, Nov. 1 .- The marked increase of the trade of the Dominior Canada for the last fiscal year forms subject of an advance sheet issued today by the bureau of foreign nerce of the department of state. The aggregate commerce of Canada for year was \$414,431,831, against \$379, 243,773 in the preceding year. The in-creas was largely in imports of goods entered for consumption. The value of the imports from the United States for 1902 was \$120,809,956 against \$49,215,695 from Great Britain and \$32,785,946 for all other countries. The increase in importations from the United States exceeded \$16,000,000. While there was increase there was a marked falling off in imports of cereals from this country, amounting to \$3,708,769 and due entirely to the falling off in the flemand for American corn. The value of the imports of cotton and its manufactures has steadily increased for many years, and the increase is maintained in 1902, being \$1,474,041, and the amounting to \$13,775,940. Of this amount Great Britain supplied \$5, and the United States \$47,653. Looking back over five years, it ars that importations from Great ain are gradually approaching in a those from the United States ap-

In the importation of iron and steel there is an increase of over \$6,000,000, the shipments from Great Britain having nearly doubled. The shipments of the metals from the United States did not show as large an increase as from Breat Britain, amounting to \$24,594,485 or 1902 against \$23,110.552 for 1901. Of exports there was an increase

parently on account of the preferential

\$1,600,000 in the value of horned cattle sent to Great Britain and of \$2,000,000 in breadstuffs sent to that country.

A table is printed showing that Cana the United States than from all other countries, and sells Great Britain one-quarter more goods than she sells to an other countries.

Big Customs Fraud Discovered.

New York, Nov. 1.-In its first issue today, a new shipping periodical says, according to the World, that investiga. tion led to the discovery, before the repeal of the revenue stamp tax, of a \$400,000 fraud at the port of New York. The fraud was perpetrated through the use of cancelled and washed stamps. The tax is no longer in force except on

The evidence was gathered by a corps of government inspectors working in the customs house.

The blame is thrown upon the clerks and employes of custom house brokers. Individual brokers discovered the scheme, so far as their own officers were concerned, it is said, but not knowing that it was a part of a general plan, contented themselves with discharging the offending clerks. According to the story, an investigation may be instituted in other cities.

SHALL IT BE INSTITUTIONALISM? Dr. Murray Butler Gives His Views On the Question.

New York, Nov. 1 .- Dr. Nicholas Murray Butler, president of Columbia university, in an address before the schoolteachers of Brooklyn in the girls high school, has denounced collective ism and anarchy and advocated what he said was the only solution to the problem of industrial democracy-in-

"The industrial democracy finds itself face to face with powerful forces, which, until this time, have operated at a great distance." he said. "The whole problem is how are we to wisely and sanely develop individuals who can work harmoniously and at their best and live together without losing their individualism or individuality?

"By collectivism or the killing of individuality, we should full society to sleep. By anarchy we should let loose every individual to his own irresponsi-

ble desires and passions.
"In the literature of today you will find these extremes smoothly promulgated. Between them has come to view an educational ideal having the mer-I call it institutionalism. "It stands for freedom of speech, a

free press, protection of private property, respect for individual rights and iberty for all.
"I believe we shall have shortly to argue openly this question of collectivism and institutionalism."

To Quell Outbreak in Morocco.

New York, Nov. 1 .- It is reported that the sultan's brother will leave the capital today with 2,000 troops to quell a local uprising that has broken out near Tesa, three days march east of Fez, where a pretender has risen, claiming the throne as the sultan's elder brother, says a Times dispatch from Tangler, Morocco, by way of London.

The pretender, it is said, is an ordinary soldier, but the Berber mountaineers of the district apparently place a good deal of credit in his pretensions.

Union War on Aristocratic Artists New York, Nov. 1.-Trades unionism is reported to be planning a campaign on the aristocratic ranks of this city's most successful artists, illustrators and mural painters. Walking delegates of the Amalgamated House and Sign Painters' union and the Lithographers' union are credited with having made the discovery that their fellows have been working in buildings where paneis, etc., were decorated by painters un-affiliated and plans are said to be under and illustrators in particular. tors may be asked to join the ranks.

Objectional Immigrants.

New York, Nov. 1 .- The immigration authorities have been asked to hold 20 children who will arrive here on the Orizaba from Santiago, as possible objectionable aliens. The children as an-nounced in cable dispatches from Cuba are coming to join the Universal Brotherhood at Point Loma, Cal. The Children's Aid society has asked Commissioner Williams to hold them for "special inquiry." On the arrival of the ship they will be taken to Ellis Island and subjected to an examination. If it is found that ony of them cannot show that they are legally entitled to land in this country they will be held for examination by the board of special

inquiry. ·Civil Service Commission Report.

Washington, Oct. 31.—The nineteenth annual report of the United States civil service commission for the last fisal year has been submitted to president. It announces substantial progress in the competitive system and general observance of the civil service law and rules during the year. The in clusions in the competitive during the year were the rural free delivery service, a considerable portion of the field services of the war department, the census office permanent em ployes and the employes appointed because of increased work during the war

with Spain. There were 62, 029 persons examined for places and 14,883 persons appointed, reinstated or transferred, a large in-crease over any preceding year.

The commission recommends legisla-tion applying the competitive system to the District of Columbia. A new re-vision of the rules to supplant the present obsolete provisions and the dis-jointed arrangement of numerous amendments will soon be submitted to the president.

Armor Plate Tests.

Washington, Oct. 31.-During the present week there has been two tests of armor plate at Indian Head. The first test was made with 6-inch pro-jectiles on triangular 6-inch Krupp plate to be used on the cruisers Colorado, Pennsylvania, Maryland and West Virginia. Three shots were fired. The greatest striking velocity was 1919 feet per second. The armor was pene-trated only about two inches. The other test was with 11-inch

Krupp plate to be used as side armor

Pay a Penny

To Aid a Sick Friend, and I Will Risk \$5.50.

I ask only a postal card-just the name of someone who needs help. Tell me the book to send. 'Tis a trifle to do for a friend-don't neglect it. I will gladly do all the rest.

I will even do this: -I will mail the sick one an order-good at any drug store-for six bottles Dr. Shoop's Restorative. He may take it a month at my risk. If it succeeds, it costs \$5,50. If it fails, I will pay the druggist myself. And the sick one's mere word shall decide it.

I do that so that those who need help will accept it. I have what those sick ones must have to get well, and I want them to have it. I make my offer so fair that no sick one can neglect it.

I do just as I say, and trust the cured ones to be fair with me. I have furnished my Restorative to hundreds of thousands on those terms, and 39 out of each 40 have paid gladly, because they were cured. I want not a penny other-

My Restorative is my discovery, the result of my lifetime's work. I have personally tested it in thousands of cases as difficult as physicians ever meet. In my vast experience I have so perfected it that it does not fail, save when a cause-like cancer-makes a cure impossible.

My success comes from strengthening the inside nerves. Common treatments merely doctor the organs, and the best results are but temporary. My treatment restores the nerve power which alone makes those organs act. It is like giving a weak engine more steam. Any weak vital organ does its duty when given the power to act, and there is no other way to make weak organs well.

No other remedy strengthens weak inside nerves, and for this reason there is no other treatment for chronic disease which any man will offer on a plan like mine, Please tell me who needs a remedy like that.

Simply state which book is wanted and address Dr. Shoop, Box 713, Racine, Wis.

Book No. 1 on Dysnepsia. Book No. 2 on the Heart. Book No. 3 on the Kidneys. Book No. 4 for Women. Book No. 6 on Rheumatism.

Mild cases, not chronic, are often cured by one or two bottles. Dr-Shoop's Restorative is sold by all druggists.

for the battleship Nebraska, now under construction by Moran of Seattle. In this instance a 10-inch gun was used, and the penetration was three inches. Both tests are said to have been suc-

The navy department is now receiving consignments of armor in rapid cession, the delivery being considerably in advance of the demand. In the case of the Nebraska, for instance, the keel was laid only recently, and it is not known when the vessel will be ready to take armor.

IS GRANITE MINERAL? U. S. Supreme Court Hears Arguments on Question.

Washington, Oct. 31.—The supreme court of the United States today began the hearing of arguments in the case f the Northern Pacific Railroad con pany against J. A. Soderberg of the state of Washington. The suit involves a controversy over land within the land grant of the railroad company. The land in question is covered with granite, and Soderberg declares that it s mineral and therefore exempt from the terms of the grant. The point at issue is whether granite is a mineral. The case is to be a test one, much other land within the limits of the Northern Pacific land grant being covered with granite.

SCOURGE OF TRACHOMA. New York Public School Children Threatened with It.

New York, Nov. 1 .- At a conference just held at call of Commissioner Le-derle of the department of health, it was declared by some of the speakers that this city is threatened with the scourge of trachoma which has made Egypt, the Barbary states and certain parts of eastern European nations of "sore eyes." Trachoma is most readily communicated in the schools or in the home. It was pointed out in the conthat the ends of lead per when rubber tipped are especially liable to communicate the disease when used by pupils who sit at desks side by side or in the old type of benches made for two or three.

President Burlingham of the board of education, demanded the speediest and the most thorough means of treat ment known to medical science, which while relieving the distress of one should not endanger the health of another and while conserving the health of all, should not interfere with the

education of the original sufferer. To this problem neither he nor Commissioner Lederle obtained any satisfactory answer from the experts assembled, and another meeting is probable. Since the beginning of the school here about 14,000 pupils have been ex-cluded by health department inspectors.

A FRACAS JUST AVOIDED.

Between American Guard and Colombian Officials,

Colon, Colombia, Oct. 31 .- A French steamer arriving here today from Sa-vanilla brought a telegram, which had been censored by the governor of the department of Bolivar, from Gen. Uribe-Uribe to his wife at Bogota. This message was dated Rio Frico, Oct. 28, and said the writer was safe and about to sign a treaty of peace to include the entire departments of Bolivar and Magdalena. Gen. Uribe-Uribe said he expected to reach Bogota shortly.

The news of Uribe-Uribe's surrender is well calculated to dampen the spirits of the revolutionists. The arrival of the 1,300 government troops this morn ing, the first installment of the reinforcements destined for the Isthmus, is also another great set-back to rebei

It is understood that Admiral Casey now authorizes the transportation on the railroad of Colombian troops and ammunition across the isthmus. Last Wednesday a serious fracas all but occurred at the railroad station in Panama between American marines on guard there and government officials and troops. The Colombians tried to remove from the station six wagon cads of ammunition, which had come n from Colon, but the marines preventd them from doing so. The ammuniion was subsequently delivered to the

Japs Rescued from Burning Steamer San Francisco, Nov. 1 .- Forty-five Japanese, powerless to escape from a burning steamer, were rescued by the transport Crook on her outward voy-age from this port. News of the rescue reached here on the transport Sheri-

dan. The Crook left here on Sept. 16 for Manila, On Oct. 10, when off Van Die-man's, a steamer flying distress signals was sighted. The vessel proved to be the Japanese collier Yoshimi Maru, and

was on fire. The Crook altered he course and headed for the burning ves sel. When she arrived within hailing distance the flames were beyond the control of the crew and were coming from the hatchways. The Japanese were hanging over the sides of the ves-sel, being unable to stand the heat on deck. All were rescued by the crew of the Crook and taken to Nagasaki. The Japanese stated that the first sign of fire the Chinese members of the crev launched the boats and left the Japa nese to fight the fire unassisted. Yoshimi Maru burned to the watter's edge and then disappeared from sight.

William's Visit to England.

New York, Nov. 1.-German official circles are anticipating with keen in-terest the visit of Emperor William to it is said to be earnestly hoped in Berlin that it will contribute toward softening the acerbity, as it is described, of popular British sentiment in regard to Germany and German policy. The emperor's powers of persona charm are declared to be proverbial and it is a source of no little satisfa tion in official circles that he will have the opportunity of exercising them dur ing his visit to Sandringham in con ential members of the British govern

London Autumn Art Exhibition. New York, Nov. 1.-Art galleries are varying their autumn exhibitions, cables the London correspondent of the Tri-bune. Fifty oils, pastels and challenger drawings by George Clausen are see in the Goupil gallery, the best example being studies of hay ricks and diml lighted forges and barns, and effects of and the variegated color of orchard in the spring-time. Nearly a hundred oil paintings of the British, French and Dutch schools are exhibited at Mc-Lean's. It is an unusually brilliant col-

Mrs. Nannie Bird Was Poisoned. Boulder, Colo., Oct. 31.-The coroner' jury in the case of Mrs. Nannie G. Baird, who died suddenly Oct. 15, to-night returned a verdict charging that death was due to pois tered by her husband, Dr. Rudolph Baird, or by some one with his knowledge. Dr. Baird is one of the most prominent physicians of Boulder,

SUDDEN RUSH OF CAS FATAL.

Four Men Killed and Three Seriously Affected.

OTHERS BARELY ESCAPED

Thirteen Men Were Working ou Sewer Just Started a Heading And Discharged a Blast.

Niagara Falls, N. Y., Oct. 21.-By a sudden rush of gas, supposed to have been sulphuretted hydrogen, four men were killed and three seriously affected hear the Twenty-fourth street heading of the big tunnel trunk sewer tonight

Falls. Hugo Swanson of Niagara Falls. William Brandish of Tonawanda. SERIOUSLY AFFECTED.

Romano Kovich, Niagara Falls; will Samuel Finch, colored, Niagara Falls.

Michael Mulroy, foreman, Niagara Thirteen men, comprising the entire second shift, were working on the sew-er. They had started a heading at a new level and had loaded a blast which was to be discharged. After loading they walked back 225 feet below the heading and the shaft of Twenty-fourth street, but before they could reach the of the tunnel, over which a considera-ble stream of water was flowing. The others, becoming alarmed, pushed ahead

George Rhodes was ascending in the gas and fell from the bucket to the bot tom of the shaft. He died from the re sult of his injuries. Seven others suc ceeded in getting out. Four men lay in the tunnel. All were dead.

WEST POINT THE BEST.

Such Gen. Wood's Opinion After Inspecting European Military Schools

New York, Nov. 1.-Gen. Leonard Nood, who inspected the best Germa military school two months ago, has been visiting the chief British nursery of from London. His faith in the superior ity of West Point in all matters relat estion of army officers is unshaken, however.

Results of Santeipal R.R.Ownership New York, Nov. 1.-The Municipa Journal which has been taking a seri-ous view of the criticism of the Times

on the administration of English and cotch cities and resenting Robert P Porter's comparisons with American ectric undertakings, publishes detailed igures respecting the results of munic al trading of general railway tramway ownership, and corporations in particu-lar, says a dispatch from London to the terest the visit of Emperor William to Tribune. They show larger profit than England, according to the London correspondent of the Tribune. Although ton, Birmingham, Bolton, Manchester. Leeds and Nottingham being conspic uous examples of remunerative enter-prises.

Big Steel Plant for Montana.

Great Falls, Mont., Oct. 31.-James J. Hill has begun the development of steel and iron industry in the west which will rival anything of the sor the world. He arrived here yes erday to arrange the first definite pro ect in his great enterprise, the trans formation of the old silver smelter of the American Smelting & Refining company, which has not been in operation for years, into an iron and steel

Two Boys Killed by Train.

Lafayette, Ind., Oct. 31.-Daniel Neall William Rousch was fatally injured by a freight train while asleep beside the tracks near here today. Tired of school they left their homes three days ago. They became weary after a long tramp, sat down on the tracks to rest and fell asleep.

Adventist Refused to Work Saturday

Washington, Oct. 31.-William L. Quackenbosh, a clerk in the appraiser's ffice in New York, has been discharged because he refused to work on Sat urday. Mr. Quackenbosh is a Seventh Day Adventist. For some time his wish not to work on Saturday has been complied with, but when the increase of work in the appraiser's office necessitated his attendance on that day, he declined to work and was accordingly

TREATMENT FREE UNTIL CURED.

To all beginning treatment with Drs. Shores & Shores, Salt Lake's leading specialists, THIS MONTH to prove to the public that there is a PERMANENT CURE for CHRONIC DISEASES (that are curable), the doctors give their professional services FREE and their treatment FREE to all who apply BEFORE DECEMBER 1ST. The only expense to the patient will be for the medicines ACTUALLY USED.

Many Will Be Cured for 50 cents.

UNDER THIS SPECIAL OFFER YOU PAY FOR THE MEDICINES ACTUALLY USED. Many will be cured for 50 cents. The most stubborn cases of chronic disease will not exceed \$5 for one whole month.

If you have catarrh; if you are deaf; if you suffer from asthma or lung trouble; if you have stomach, liver or kidney disease or any other chronic all ment, this is your opportunity to obtain skilled medical treatment practically

WHY EXPERIMENT? WHY SPEND MONEY ON "FAKE PATENT MEDICINES" WHICH OFTEN CONTAIN COCAINE, OPIUM OR SOME OTHER DANGEROUS NARCOTIC when you can get expert medical treatment practically free? THIS GRAND SPECIAL OFFER GOES INTO EFFECT AT ONCE, AND HOLDS GOOD TO ALL WHO APPLY THIS MONTH, DO NOT DELAY, START IN AT ONCE, CONSULTATION FREE TO ALL.

Symptoms of Diseases of the Nerves

Symptoms of Diseases of the Nerve.

The majority of pervous diseases are caused by poisons in the blood. Poison circulating in the blood harmses the brain and nerves, and such symptoms as these follows:

Do you get giddy?
Is your mind dull?

Are you easily dazed?
Do you have headache?

Are you easily excited?
Does your heart flutter?

Are you easily irritated?

Are you always anxious?

Do your muscles twitch?
Is your temper firitable?

Suffet from sleeplessness?

Are you easily frightened?
Does your sleep not refresh you?

Do you suffer from neuralgia?

Do you suffer from meralgia?

Catarrh extends from the throat along the untended of the live. If you have any or all of disease of the liver. If you have any or all of them, seek Drs. Shores now and be cured by Drs. Shores famous treatment. "Is your hearing failing?" "Do your ears discharge?" "Is the wax drains in seek. DANGER SIGNALS

Aches and Pains Are the Danger Signals That You Are Sick and

Need Treatment. Read the following symptoms over carefully, mark those you feel in your case, and send or bring them to Drs. Shores and they will tell you whether you can be cured FREE OF CHARGE.

The Head and Throat.

The Head and Throat.

This form of catarrh is most common—resulting from neglected colds—quickly cured with little cost by Drs. Shores' famous treatment.

'Is your nose stopped up?'

"Does your nose discharge?'

"Is there pain in front of head?''

"Is your hawk to clear the throat?''

"Is your throat dry in the morning?''

"Do you sleep with your mouth open?''

You can be easily cured now—don't let it run tato compilications.

Results in two ways, by taking cold and by overworking the kidneys in separating from the blood the catarrhal polsagas which affect all organs, Quickly cured with little cost by Drs. Shores' famous treatment. "Do your hands and feet swell?" "Is it noticed more at night?" "Is there pain in the small of the back?" "Has the perspiration a bad oder?" "Is there pulliness under the eyes?" "Do you have to get up often at night?" "Is there a deposit in urine if left standing?" "Onn't neglect these signs and risk Bright's The Bronchial Tubes.

The Bronchial Tubes.

When catarrh of the head or throat is neglected or wrongfully treated, it extends down the windpipe into the bronchial tubes, and after a wnile attacks the lungs. Quickly cured with little cost by Drs. Shores' famous treatment.

"Have you a cough?"
"Do you take cold easily?"
"Do you raise frothy materials?"
"Do you raise frothy materials?"
"Do you feel you are growing weaker?"
Don't risk neglecting these warnings—stop the lisease before it reaches the lungs.

The liver is affected by Catarrhal poisons, ertending from the stomach into the ducts of the liver. Quickly cured with little cost by Drs. Shores' famous freatment.

"Do you get dizzy?"

"Have you cold feet?"

"Do you feel miserable?"

"Do you get tired easy?"

"Do you have hot flushes?"

"Are your spirits low at times?"
